e-Washroom X

ALL SURFACE WASHROOM CLEANER

- » Effectively provides wetting, penetrating, soil cutting and anti-redepositing action.
- » Cleans, refreshes and eliminates organic waste build up
- » Digests organic debris at the source
- » Deodorises by destroying the source of the bad odours

E-Washroom is a specialised GECA CERTIFIED concentrated biological preparation for multi-surface cleaning of bathroom and washroom surfaces. The All Surface washroom cleaner is the naturally effective way to clean and control unpleasant washroom odours without using toxic and caustic chemicals. When used as directed, is safe to use, safe for the environment, non flammable and readily biodegradable.

It effectively combines biodegradable surfactants, fresh fragrance and beneficial bacterial strains, which digest organic debris at the source. The microbes effectively penetrate porous surfaces and establish effective self-renewing biofilms deep inside inaccessible surfaces. All Surface Bathroom Cleaner successfully performs many functions – it cleans, refreshes, eliminates organic waste build up and deodorises by destroying the source of the bad odours. The surfactant system effectively provides wetting, penetrating, soil cutting and anti-redepositing action.

BIO-DEGRADABLE

PHOSPHATE FREE

ACTIVE MICROBES

CONCENTRATED FORMULA

APPLICATIONS

Ideal for cleaning mirrors, sinks, taps, urinals, toilet bowls, floors, shower cubicles and any other washroom associated surface. Safe for use on many surfaces including; stainless steel, ceramic, melamine, polymers, glass, marble and granite.

INGREDIENTS

15-30% nonionic surfactant, <5% amphoteric surfactant, isopropanol, perfume, koavone, para tertiary butyl cyclo hexyl acetate.

RTU has a microbial content of 1e7cfu/g. Immunocompromised individuals should avoid contact with products containing microorganisms.

DIRECTIONS OF USE

For lightly soiled surfaces: Dilute at 1:300 in a spray bottle or mop & bucket. Spray or apply the cleaning solution to the surface to be cleaned. Scrub with a soft scrubbing pad or cloth. Wipe up any excess cleaning solution.

For heavily soiled surfaces: Dilute at 1:150. Allow a contact time of up to 10 minutes, prior to commencing clean down for heavy soiling and stubborn staining.

For use in automatic scrubbers: Dilute at 1:600.

STORAGE

Store in a cool, well ventilated area. Keep container tightly closed.

EMERGENCY FIRST AID PROCEDURES

Spill: Contain excess material and wash residue to drain.

Skin: Remove contaminated clothing and footwear. Wash solution off skin with plenty of water and soap. Wash clothing and footwear before use.

Eyes: Immediately flush with water for at least 15 minutes and have eyes examined by medical personnel.

Ingestion: Drink plenty of water or milk to dilute. Induce vomiting only if advised by physician.
